Subject: Re: History of Colombia

Dear Peter:

Thank you for the invitation to write about the History of the MB Church in Colombia. I don't know what's been going on Colombia for the past twenty years plus. If I would accept to write this paper I would need to use the archives in FPU library for research and also the MB Mission office in Fresno. I don't know if the small stipend that you mention would cover my trip to Fresno. In 1989 I wrote a History of the MB in Colombia that Paul Toews was going to publish in a book. I hope Pauls still has this paper.

In six months we will visit probably Colombia. I would like some leaders in Colombia to read and correct a draft of this paper before I send it to you.

What is the dateline for this paper?

Let me know what you think about these thoughts.

We miss out Church in Fresno at lot. Blessings for you and Nancy.

Shalom.

Hugo.

Chair of the Japan Mennonite Brethren Church

Dear Brother,

I am writing to you on behalf of the bi-national MB Historical Commission, which has been asked (by ICOMB) to prepare a historical overview of Mennonite Brethren around the world. We would like to have such a volume ready well before the 150th anniversary of the MB Church in 2010.

Our mutual friend, Bob Enns, has suggested your name as the best person to write such a historical survey (about 8-10 pages). Would you be willing to do this? I might add that we are trying to have most of the writing done by persons from the various countries where there are MB churches. We also try to find a second person to review or help with the writing. There is a small stipend.

We look forward to hearing from you.

Blessings on you in your important work,

Peter Klassen

Subject: Re: Baker book

Actually, Paul, this is not a chapter but a whole book!

It is part of the "Encountering Mission" series that I am editing for Baker, and was to cover the topic "Encountering the Social Sciences and Mission"--with a heavier focus on anthropology. The total length is 150,000 words.

Does this ring a bell with you? If not, we really do need to talk. I'm currently in Beijing, but will be back in the office at Wheaton next week starting from Wednesday.
